

FIRST ANNOUNCEMENT AND CALL FOR PAPERS

September 24-28, 2012, Tomsk, West Siberia, Russia

Siberian Branch of the Russian Academy of Sciences
Scientific Council for Chemistry of Fossil and Renewable and Carbon-Containing Raw Stuff
Tomsk Region Administration
Institute of Petroleum Chemistry SB RAS
Institute of Chemistry and Chemical Technology MAS invite you to attend

VIII International Conference “OIL AND GAS CHEMISTRY”

In the frame of International Conference **the 6th Conference of Young Scientists** will be held

SCIENTIFIC PROGRAM

A. Oil and Gas Chemistry: Oil dispersed systems. Natural bitumen and oil shale – unconventional hydrocarbon sources: resources, distribution in stratigraphic complexes, compositional and structural features. Regularities in distributions of hydrocarbon, heteroatom and high-molecular compounds in oils, gas condensates and in organic matter of rocks. New methods intended to study oils, composition and structure of oil components.

B. Enhanced Oil-and-Gas Recovery, Treatment and Transportation of Oil and Gas. Physicochemical and microbiological methods intended to improve oil, gas and condensate recovery; the impact of EOR methods on composition of the recovered oil; advanced technologies used to treat bottom zones of oil and gas wells; promising technologies for oil and gas conditioning and transportation; problems of production, conditioning and transportation of gas, high-viscosity and highly paraffinic crude.

C. Rational Use of Hydrocarbons. New approaches to the processing of hydrocarbon raw materials: oils, natural bitumen and oil shale. New methods for chemical processing of gaseous hydrocarbons. Unconventional methods for deeper oil processing, new products and materials obtained from oil, hydrocarbon gases and synthesis gas. Desulfurization of hydrocarbons and petroleum products. New methods and technologies for treatment, recycling and utilization of industrial waste in oil-and-gas complex.

The Conference program will include both oral and poster presentations. The accepted papers will be published in the Conference Proceedings and will be available at the beginning of the Conference.
Working languages: Russian and English.

The manuscripts should be submitted to the Organizing Committee not later than on **April 15, 2012**.
To register and submit papers please visit <http://www.ipc.tsc.ru/econf/8m2012/>

SUBMISSION OF MANUSCRIPTS

The length of the manuscript: 3-6 full pages A4 typed using laser printer including tables and drawings prepared in Win Word 6.0 – Win Word 2000. Margins: left – 30 mm, right – 15 mm and others – 25 mm. The preferred font should be Times New Roman (12-point type, 1.5 space). Drawings should be included into the context using .bmp, .tif or .pcx. In addition drawings should be presented as separate files in JPG or GIF format, completion not less than 300 dpi. Tables should be included into the context and typed using only text redactor Win Word 6.0 – Win Word 2000. It is inhibited to insert tables and drawings as the objects MS Excel.

The manuscript should be arranged as follows: title, centrally positioned, in small letters, 14-point bold type; blank line; authors (initials and surname) in small letters, in italics; 12-point type; organization, full mailing address, country, fax, e-mail; blank line; abstract of about 200 words, single spacing; separated from the text body by one blank line.

The authors will be notified of paper acceptance not later than **July 15, 2012**.

Registration fee: active participants – ^ 200 + VAT; accompanying persons – ^ 100 + VAT; post-graduates and students – ^ 100 + VAT.

Mailing address: Organizing Committee, Institute of Petroleum Chemistry RAS,
4, Akademicheskoy Avenue, 634021, Tomsk, Russia

E-mail: canc@ipc.tsc.ru; nadin@ipc.tsc.ru **Fax:** 7(3822) 25-84-57 **Web-site:** <http://www.ipc.tsc.ru>

☎: +7(3822) 491-623; 492-491
